BIKE COLLECTION 2017

bern

- EST. 2004 -

Bern is a family-owned company headquartered in Kingston, MA, on Boston's South Shore. Made up of people passionate about cycling and the outdoors, Bern focuses on designing stylish, innovative, and purpose-built helmets that appeal to riders looking for something a little out of the ordinary. We embrace all aspects of the sports we love, and strive to make high-quality products that speak to commuters and casual cyclists as well as to weekend warriors and dedicated athletes. Whether you use your bike for transportation, exercise, or just as a great way to get outdoors, we have your head covered!

Bern – built for you, built for your life.

FL-1 XC AND FL-1 TRAIL

New for 2017, The FL-1 XC and FL-1 Trail are Bern's first true dirt helmets. Made with our seamless in-mold construction, the FL-1's are now offered with a heavy-duty detachable visor. The Premium XC version comes standard with added MIPS protection and an improved 360 degree BOA liner, while the Trail model is made with our new lightweight Crank-Fit adjustable system. Check them out on pages 14-17.

UNION AND PARKER

New for 2017, the Union and Parker models build upon our existing best-selling commuter helmets with updated designs and functionality. Made with Bern's high-quality Zipmold Plus technology, both models come with an improved 360 degree Boa liner, and an all new removable flip visor for a customized look that is all your own. Check them out on pages 22-25.

Designed in conjunction with our friends at Portland Design Works, our new Quickmount Asteroid and Meteoroid rear light mounts directly to all Bern helmets via the two small holes located in the rear of the helmet shell (FL-1 series excluded). The light mount screws easily into the existing holes, providing a clean, integrated look and positioning the light for maximum visibility. In addition, the Asteroid and Meteoroid are compatible with standard PDW seatpost and clip mounts, meaning you can easily transfer one light from your helmet, to your seatpost, to your messenger bag and back (additional mounts available directly from Portland Design Works). Available in a USB rechargeable version and a standard CR2032 battery version, the Asteroid and Meteoroid offer multiple flash patterns, water resistance, and a high-output LED bulb.

The Asteroid and Meteoroid fit all new and older Bern helmets with a two-hole mount located in the rear of the shell.

WHAT MAKES OUR HELMETS DIFFERENT?

Style - Low-profile, innovative designs, sophisticated look. All helmets protect your head - ours look good while doing it.

Innovation - Boa retention systems, proprietary Zipmold + construction, patented soft-visor and The Original hard visor. Our helmets don't just look good, they also offer features not found in other manufacturers' lids.

Fit - Our unique sink-fit design allows the helmet to fit around your head instead of sitting on top of it, making the helmet more secure, more comfortable and better looking.

All Season - Our helmets can be used year-round with the addition of a cold weather upgrade. Whether you are looking for a winter commuting helmet, or want to use your bike lid while skiing or snowboarding, our All-Season design has got you covered!

**Style - Innovation - Fit - All-Season
Bern!**

CONSTRUCTION

IN MOLD

Shell seamlessly fused with interior EPS foam for a clean look and high strength to weight ratio. Found on our FL-1 Series.

ZIP MOLD[®]+

Our proprietary liquid foam construction has a higher strength-to-weight ratio than traditional EPS foam, making our helmets lighter and lower-profile. Available in the Allston, Melrose, Union, Parker, Brentwood, Berkeley, Niño and Niña.

thin SHELL

Our tried and true technology, Thin Shell is the ultimate balance between hard ABS or polycarbonate shell thickness and interior EPS foam thickness. Safe, durable and strong. Available in the Watts, Lenox, Macon, Brighton, Bandito, Bandita, Diablo and Diabla.

FIT

360 degrees of adjustment guarantees a high-quality fit. Premium Boa durability and construction. Lightweight and ultra-comfortable.

Premium Boa dial adjustment system integrated into our standard helmet comfort liners.

TEAM FIT

Non adjustable die cut padding.

New and improved lightweight dial fit system with 270 degrees of adjustment.

Tried and true proprietary dial adjustment system. Simple and durable.

EZ - FIT

Classic pull strap hook-and-loop fastener.

SAFETY

Multi-Directional Impact Protection System. Designed to protect against rotational violence to the brain caused by rotational impacts.

Bern signature design. Our helmets extend to cover the back of the head, providing greater coverage and greater protection than traditional cycling helmets.

The Asteroid and Meteoroid fit all new and older Bern helmets with a two-hole mount located in the rear of the shell

BERN HELMETS

Designed and Built to Fit Your Life

At Bern, we understand that not all cyclists are the same. Some folks ride a bike for transportation - to the office, the grocery store, or to the farmer's market on Sunday mornings. Some ride for fitness, some ride for the love of the sport, some ride just to get outside with the family on a nice weekend day.

Whatever your reason for throwing a leg over a bike, Bern makes a helmet for you. From the hip, urban-inspired Brentwood and Berkeley, to the more aggressive Allston and Melrose, to the skate-inspired Macon and Brighton, we offer a helmet that fits your style. With the introduction of our new FL-1 series, we even offer helmets to meet the needs of the most demanding avid cyclists.

And don't forget about the kids! Our junior and youth helmets retain the style and quality of our adult helmets, sized down to fit smaller heads perfectly. With fun graphics and a cool look, our kids' helmets are sure to make your junior Olympians and future X-Games champions happy.

Bern - style, safety, fit, comfort.

TRAIL

MODELS :
FL-1 XC, FL-1 TRAIL

Mountain biking, at its core, is about being away from the crowds, away from the pavement, away from city streets and cars and noise. It is about buffed out singletrack, challenging rock gardens, epic climbs and fast descents. Equally, it is about the camaraderie that comes from challenges collectively met and overcome, epic adventures shared, and post-ride beverages consumed. The beauty of mountain biking is that it can be whatever you want it to be - it defies categorization. Just like our new Trail Series helmets. Equally at home on the gnarliest of trails as they are on the bike path, our Trail helmets are technical without being overkill, comfortable without sacrificing performance.

Pre-work spins on local trails. Weekend rides with friends. That long-planned-for trip to Moab or The Kingdom Trails. Wherever your ride takes you, the new FL-1 XC from Bern has all of your mountain bike adventures covered. Featherweight In-Mold construction, a premium Boa retention system, a purpose-built removable hard visor, MIPS protection, and 18 air-hungry vents all combine to make the FL-1 XC a premium trail lid. And, with a style all its own, the XC is sure to bring a little extra edge to your game.

Split your time equally between the bike path and the local trails? Looking for a technical helmet that won't break the bank? The FL-1 Trail is the lid for you. Modeled after our top-of-the-line FL-1 XC, the Trail retains the In-Mold construction, light weight, styling, and ample venting of its big brother. By using our own dial retention system and a simplified visor design, however, we are able to bring the price down significantly, leaving you plenty of spare change for a six-pack of your favorite local brew. The FL-1 Trail - premium style and performance without the premium price tag.

PAVEMENT

MODELS :

FL-1 Pavé, Allston, Melrose, Union, Parker, Brentwood, Berkeley, Watts, Lenox, Team Macon, Team Brighton

Whether you ride your bike for transportation, fitness, fun or sport, Bern has your head covered. From urban commuter lids like the new Union and Parker, to true road helmets like the FL-1 Pave, we make a model sure to fit your style and budget. Our signature urban helmets feature Bern originals such as hard and soft brims, moisture-wicking liners, and a low-profile fit. Our new performance pavement lids feature key technical elements such as a Boa 360 degree retention system, In-Mold construction, and ultra-large venting. And all our helmets feature the Bern Signature Design, resulting in a low profile, light weight helmet with greater coverage of the back of the head.

Like Bern's signature style, but looking for something a little more technical? Want a helmet that is equally at home in a paceline as it is on a spirited commute to work? The FL-1 Pavé is the lid for you. With a style inspired by the original leather Tour de France helmets, the FL-1 Pavé offers plenty of ventilation, ultra-light weight, a unique look, and technical cutting-edge features such as a Boa 360 degree retention system and optional MIPS protection. The FL-1 Pavé: style without compromise.

From the café to the office to the local watering hold, the Union is at home wherever your urban adventures take you. Inspired by our best-selling Brentwood, the Union feature 21 vents, a Boa 360 degree retention system, a removable flip visor, and the modern styling to back it all up. Designed specifically for those urban riders who want their gear to look as good as it works, the Union is sure to be an instant urban classic. Our proprietary Zipmold + construction helps make this one of our lowest-profile helmets to date, while the premium moisture-control liner helps keep you cool and sweat-free on long summer commutes. Modern look, premium construction, superior fit - classic.

Built for urban riders and commuters who demand the most from their gear, the Allston is our top-of-the-line city lid. Featuring premium Zipmold+ construction, the Allston offers 3 shell sizes and a Boa 360 degree retention system for the ultimate fit, while 16 large vents offer optimum air flow. Our signature soft flip visor and a performance moisture-control liner round things out and give the Allston a distinctive Bern look. With a style that is at home on the way to the office as it is on the bike path, the Allston offers versatility, performance, and style all rolled into one package.

Value, safety and style – the Berkeley offers it all. Specifically engineered for women, our most popular ladies helmet features premium Zipmold+ construction, a low-profile look, and a dial adjustable retention system for a secure fit. The flip visor gives the Berkeley that signature Bern look, while a moisture control liner helps keep you cool and comfortable. The Berkeley set the trend in urban cycling fashion when first introduced, and it still leads the way with its classic good looks and go-anywhere appeal. Your style, your life, your look - the Berkeley fits them all.

With its street-smart looks and classic lines, the Team Brighton brings urban cycling back to its roots. Skate inspired but tailor-made for cycling, with a low-profile fit and high quality build, the Team Brighton is edgy enough to be interesting but sophisticated enough to be grown-up. Utilizing our single-sizing Team Fit system and tried-and-true EPS/ABS construction, the Team Brighton strikes an excellent balance between comfort, fit, and value. And, since it passes all bike and snow safety certifications, the Team Brighton is a true all-season performer, able to take you from your morning commute to the ski lodge in style and comfort. A great choice for those looking for an all-around, stylish and value-packed helmet, the Team Brighton will not disappoint!

JUNIORS

MODELS :

Bandito, Bandita, Diablo, Diabla

For older kids, bikes equal freedom. The ability to visit friends, explore the neighborhood, ride to the corner store - all on two wheels, all without adult supervision. What could be better? We have designed our Junior line to precisely reflect that sense of freedom. Based on popular adult models, and borrowing elements from skateboarding, snowboarding, and BMX, our Junior helmets incorporate a style and look that is both grown up enough to satisfy pre-teens' desire for independence and fun enough to appeal to the little kid still hiding inside them. As an added bonus, all helmets in the Junior line are 4-season certified, meaning they can take your child from the neighborhood streets to the local ski hill in style and comfort

Designed specifically for pre-teen heads, the Bandito is a great choice for older kids who want a helmet with an edgier and unique look. Modeled after the adult Watts, with its baseball-inspired hard brim and hat-like lines, the Bandito features a lightweight EPS/ABS construction, our dial-adjustable Crank Fit retention system, and a moisture-controlling performance liner. With colors and graphics designed specifically to appeal to younger riders, the Bandito not only fits great, it also fits in with your kid's own sense of style. And, the Bandito passes all summer and winter safety certifications, meaning it can go from the streets to the slopes and back again with ease.

And, since the Diabla passes all bike and snow safety certifications it can go from the skate park, to the bike path, to the local ski hill with ease. Built using our lightweight EPS/ABS construction and featuring our simple and secure Team Fit single sizing, the Diabla fits and feels as good as it looks.

KIDS

MODELS :
Niño, Niña

We believe that the littlest riders deserve helmets that are just as safe, fun and fashionable as those made for adults. Our kids' line emphasizes bright colors, cool graphics and cute designs, while staying true to our desire to build the highest quality, best fitting and safest helmets possible. With fits tailored to little heads and innovative features like integrated flip-visors to shield the sun's rays and Velcro retention systems for a snug fit, our kids helmets are made with the same quality materials and technologies found on our adult models.

Why wouldn't you want to give your kids the best?
